I arrived at my appointment for dental work with much trepidation, as my previous experience at another dentist proved to be very painful. Dr. Dilolli and the hygienist were great, and the procedure went off without a hitch! I wouldn't say I love having cavities filled now, but I was grateful to have a positive experience so I don't dread it so much in the future.

I was unhappy with my previous dentist. After seeking recommendations from people at work, three people at my work recommended Dr. Dilolli. I made an appointment for a checkup/cleaning in a few weeks. Within days i developed a bad toothache. Dr. Dilolli agreed to see me at noon that day. Within a couple of hours she had completed a root canal and provided a prescription for antibiotics. Dr. Dilolli personally called me the next morning to check up on me. I have never had a dentist do that. I couldn't have been more pleased with her professionalism and empathy. I highly recommend Dr. Dilolli.

Dr. Dilolli's superior medical knowledge was able to remove a serious post-surgical medical risk to me. It turn's out that after partial knee replacement surgery four weeks ago I was not supposed to have dental work for six weeks after the operation. Dr. Dilolli suspected something was amiss, called the surgeon's staff, got the proper instructions and postponed my work until after clearance from my surgeon. I left Dr. Dilolli's office, went straight to my surgeon's office and asked where the post operative dental instructions were. It turned out I had not received any through an oversight, even though the pending dental work was known at the surgeon's. Thus, Dr. Dilolli's diligence saved putting me at serious risk. If that is the level of dental service you are looking for, see Dr. Dilolli.

I had a dental emergency at 8pm on a Friday night. I called Dr. Dilolli and left a message w/ the emergency number. She returned my call within 30 minutes and met me at the office at 8:30am the next day (Saturday). She handled my situation calmly and efficiently. I have been going to this practice for many years and have great respect for Dr. Dilolli. She not only has the technical skills, but she also demonstrates compassion for her patients. The office is spotless, the office staff is professional, and the environment is very reassuring. Highly recommend!

I recently visited Dr. D's office for two reasons so my review will be based on those two reasons. First reason for the visit was due to regular teeth cleaning. It was performed by a dental hygienist name Martha, she was great. I have sensitive teeth so she was very careful with her cleaning technique. I've had my teeth cleaned by another dental hygienist from her office before and she was great as well. I think Dr. D. only hires dental hygienists with years of experience. My 2nd reason for the visit was to have Dr. D check on my all-on-4 dental implants (+2) for my upper arch. The surgery was performed by an oral surgeon from the Fairfax Oral and Maxillofacial Surgery. Normally, when you contact Dr. D's office to schedule an appointment, the response is pretty quick. But not this time. It took the office 2 weeks to get back to me which I kinda sorta understand because of the holidays, but on a flip side maybe it was due to lack of coordination between Dr D's office and Fairfax Oral and Maxillofacial Surgery office. I just think the communication between the two offices

was lacking. Based on teeth cleaning, I would give 5 stars, but because my visit also involved all-on-4 checkup, which I would give 1 because of lack of communication / coordination. So the average of two review is 3 stars.

The dentist, Dr. Dilolli, is wonderful; the new hygienist, Martha, is wonderful; and even the front office staff is wonderful--the front office staff juggled other patients' appointments around so that my dad, whom I take care of, and I could have our appointments together on the same day so that I wouldn't have to take extra time off work. My dad and I are still counting on our fingers how many times we've been to this practice, and we can't fit enough praise into this little box. They don't overcharge; they don't upsell; they just take excellent care of you from the minute you walk in to the minute you leave. Best dentist my dad and I have ever had!

I had an absolutely horrendous experience with a dentist when I was young, and after 21 years of military practitioners, I really do not like going to the dentist. This practice listens to what I have to say and they do a really great job putting me at ease. Everyone is friendly, they make sure everything is going ok for me during the procedure, and they give the impression that they care. It doesn't necessarily make me love going to the dentist, but it certainly makes it easier.

★★★☆☆ by Angele Whittaker on 2017-07-06

After more than 30 years coming for cleaning and other treatments, yesterday was the day I was not at all pleased. It has always been: 1 cleaning/scrubbing, etc. 2. polish, 3. floss and 4. rinse. Well yesterday, there was so called polish of 1 or 2 teeth (complain of the tool not working properly); change of something then so called polish of another 1 or 2 teeth. When the assistant stopped for the hygienist to do the scrubbing I thought the polish will be continued after her work (it was not). After the hygienist did the scrubbing, there was no flossing and I did not even once rinse my mouth to spit in the little bowl with running bottle as usual. In fact there was no use of the little (I did not see it) I don't know what happened. My last visit (before yesterday) was as I have often had it. I am sorry, I am very upset with the service I received yesterday. If the assistant did not feel she could do my teeth, she should have said so instead of pretending to polish my teeth. Plus, who polishes teeth before they are scrubbed, etc.?..I feel very insulted. It is also wrong to put Dr. Dilolli's name, she was not the performer. The hygienist did some of her part but it was half done (no flossing? I have never known that). I don't know what happened yesterday. It was not professional.

Initially, I came to see Dr. Dilolli for a consultation / referral on a costly dental procedure. She worked with me on a couple of weekends and regular business hours on breaking down the cost for the procedure. She was very helpful in terms of helping me understand the cost and what the procedure entailed. Her referral was not too shabby. While I was waiting for the costly dental procedure to be performed (about couple of months), I also had two teeth extracted by Dr. D. After the procedure, she called to make sure I was alright. Not a lot of dentists do that these days. She genuinely cares about the oral hygiene over profit. She will work with you on the cost - I can speak from person experience and from what I've heard of conversations between Dr. D and her patients. As Dr. D said, finding a dentist is like marriage. You have the find the right one. I think I did. I highly recommend her.

Dr. Dilolli has stepped into the shoes of one of the top dental specialists on the East Coast and the transition has been seamless. Her practice, including her entire support team, is superlative in every way. She already has the technical skills for restorative, reconstructive, and cosmetic dentistry as a young medical professional that ordinarily takes many, many years to perfect. This is a tribute to her exceptional intelligence, adaptive skills, dedication, and evident instinctive insight, which along with her genuine interest and sincere care for her patients, has made her the leader of one of the best dental practices in the DC / Northern Virginia region.

Dr Dilolli is always friendly, kind, and caring. She makes time to talk with her patients and shows interest in not just them as a paying patient, but as a human and a person

with feelings. Visiting the dentist is not always stress free or painless, but Dr Dilolli always makes it the best experience possible. Loved Dr Katz (and wish him the best in his retirement), but happy that Dr Dilolli is the one to replace him. The only negative thing I have to say is that the office needs to get their billing straight.

I was very much disappointed for paying \$40 for CHG oral rinse, likes of which is available for less than \$10 in pharmacy. I will have to wait rest of this year to form an opinion on where emphasis is: total dental care Vs maximizing revenue from customer. Just an honest opinion!

Apparently I am invisible in the lobby/sitting area as I arrived on time for my 9:45 am appointment, signed in with time of arrival as 9:45am, hung up my coat, and waited to be called. A gentleman came in after I did and was taken back. I wondered at the time why but continued sitting in the lobby/sitting area. The office then called my home at 10:06 am to say I had not arrived and obviously was late. I have a picture of my phone screen with the office number and time of 10:06am for the call. I was sitting in your lobby/sitting area at the time of your call saying I was not there. I'll try harder to make my presence known in future. Maybe I should stand the whole time even though I am 5ft 9inches tall.

Dr. Dilolli saved me from a world of pain. I had developed a tooth ache over Labor Day weekend. She made time to see me first thing on Tuesday and took an x-ray. I had a cracked molar and she confirmed this with several additional tests. Dr. Dilolli gave me several options to include seeing an oral surgeon. Her team called the surgeon and made me an appointment. Two hours later I had the tooth removed about painlessly as I could imagine. My recovery has been rapid. I opted to get an implant and this will be done over the next 3-6 months. But in summary, I am very pleased with the expert diagnosis, advice and assistance I received from Dr. Dilolli. She is the best!

Ozra's technique used for my semi-annual cleaning was very comfortable and she was so pleasant while explaining each step. I was a little skeptical when I first learned that Dr. Katz was turning over some of his patients to Dr. Dilolli. But I have had several appointments with Dr. Dilolli and have been very satisfied with her services. She is very skilled and professional, and is genuinely sensitive to her patients needs. Likewise, the staff continue to exceed expectations on each visit in meeting patients' needs. I would definitely recommend this practice to anyone looking for outstanding dental care.

I have been meaning to write Dr. Dilolli a note. She went above and beyond in replacing a prior repair on my two front teeth done by Dr. Katz a few years ago. The original repair was damaged in a forward fall. Rather than a simple repair she gave my entire teeth a new covering and so improved their appearance. She did this additional work without going above her original cost estimate for the job, which I deeply appreciate. I am extremely happy with the results and the overall care and service I received.

Dr. Sonia deserves a 5 stars, however the overall practice is questionable. The hygienist are very rough. The patient leave the chair in pain, and the pain stays for a few of days. The new hygienist appears to have her skills not fully developed. The last time I was there she could not control the suction versus the water stream causing the patient to be literally drenched in water, in addition keeping the patient

head position looking at the ceiling, causes the patient to grasp for air and reach for the suction line. A very bad experience, and not sure if was being done deliberately. All this leaves the patient with an essential question: should he search for another practice? It is imperative that feedback is provided to the hygienist or your practice will suffer loss of clients, guaranteed.

While my experience with Dr. Katz's practice has been good over the past 6 years, this recent visit for a simple cleaning was unacceptable.. The hygienist was careless with the instruments, banging them around in my mouth and hitting them against my teeth, and she was rude and argumentative when I explained this and other issues to her.

The team of professionals at Dr. Katz' office is skilled, patient, reliable, and consistent. I am always comfortable, in the waiting room (where I never wait long) and in the chair. They are firm in their recommendations and tutoring in home care, but sympathetic when I fall behind. They are genuinely interested in my overall health and will make notes in my records if I inform them of any other conditions, in case that might affect my dental hygiene or routines. I have had dental cleanings, fillings, and extractions through Dr. Katz' office for more than ten years. All procedures have gone off without a hitch.

I had a fabulous experience here. I came to Dr. Katz after going to Neibauer Dental where they told me I had a list of issues and pressed me (hard) to let them drill 3 teeth that day. I scheduled an appointment with Dr. Katz to get a second opinion and he explained that there were a few minor issues, but nothing worth drilling over. He and his staff have always been friendly, helpful and answered my many questions. As this is the first dentist I've chosen myself, their willingness to help me understand what's going on in my mouth and how to best take care of it has been invaluable.

Except for the recommendation that my wisdom teeth be removed, I had an excellent experience -- as always -- with Nellie and Dr. Katz. I grimace at the thought of dental surgery, but I've learned over the years to just trust Dr. Katz's opinion. I've had extensive dental work a few years ago with Dr. Katz, and the final result is just amazing. I look back at old photos of myself and ask myself, "Why did I wait so long?" He's not only a great dentist, but is an artist as well. He sincerely cares about the final outcome for his patients. As long as he's around, he's the only dentist that I trust.

My dentist retired, so I tried someone new in Reston only to be disappointed. After letting a year go by without a cleaning, I started to search for a new long-term dentist. I'm pretty sure I found him in Dr. Katz. The general office atmosphere is appealing and friendly without being overwhelming. Reception/administration offered a positive greeting and it was obvious fairly quickly that there is also a solid knowledge base as we discussed my insurance plan. I was next greeted by the hygienist who took care of my cleaning and xrays. Another very positive experience...careful cleaning without any random unexpected jabs. Finally, Dr. Katz came in with yet another smile (imagine, a smiling dentist!) and a strong handshake. He quickly evaluated my needs without trying to sell me a plan or package. I already feel that I can trust this team of professionals and booked my next cleaning in six months.

I am a classic "dentalphobe" with a strong aversion to even a simple cleaning. I had to have a cavity filled recently and Dr. Katz and his assistant were very patient with me during the process and eased me through the ordeal with kindness and understanding. On top of that, Dr. Katz was very forthcoming about what was happening as well as when and how. A very, very positive experience considering I white-knuckled it the entire time!

I thought the dentist was very professional and really took time to help me with an issue I am having with my gums. They did their best to help me get a quick appointment because of the issues I am having, and they were very gentle and sensitive to my concerns and while cleaning my teeth. They also did not recommend any crazy procedures or products to care for my teeth or gums which I appreciate because sometimes when issues arise doctors like to use it as an opportunity to make money, instead, we discussed the least invasive remedy as a strategy, and I will follow up with them to see if progress has been made or if we need to take further action.

I was really dreading having a root canal as the 2 others I had had (with other dentists) were not pleasant. I was met by Dr Arezon Daneshvar who was very nice and assured me she would try to make the entire procedure as painless as possible, She kept her word, working and stopping often to see how I was doing. Although I hope not to have another root canal- I would want Dr Daneshvar to do the procedure.

Dr Katz is without a doubt THE worlds greatest dentist! He is kind, caring, gentle, and professional and he and his staff always make you feel welcome every time you visit. Going to the dentist is not always something I look forward to, but with Dr Katz I really don't mind! After a recent tooth extraction I was impressed by him personally calling me the following day just to check on me to see how I was feeling. How many people do that anymore? I just can't say enough good things about Dr Katz and his entire staff. Been going to visit there since 2002.

I having been going to Dr Katz for a number of years now and have always found him and his staff to be caring and professional. I believe he holds himself to a very high standard and his work is reflective of that. I, myself, worked in the dental field years ago, so I know a well run office and top-notch work when I see it. I recently broke a front tooth, and although I was not in pain, the cosmetic effect was very upsetting to me. He fit me in the very next day and took care of my problem. Also, I must add, he is the most painless dentist I have ever been to. I recommend him highly.

Dr. Katz truly has the magic touch when it comes to dentistry. He is respectful, gentle, empathetic and considerate. If that weren't enough, we also benefit from an unparalleled staff that knows how to provide exceptional experiences that earn loyalty. They are caring, considerate, empathetic, helpful, generous....I could go on and on! PLUS, I love the cultural diversity, makes me feel even more at home. Thank you Katz et al. You are a one if a kind practice! Sheila

I found out about Dr Katz through radio adverisments for dental appliance options for dealing with sleep apnea, being somewhat of a skeptic, i took some time before

deciding where to go etc. . While researching Dr Katz's center, i found great reviews. I made the trip, for me over 100 miles, due to the fact of limited options closer to me and i am VERY happy i did. Upon arrival the entire staff was very inviting and made me feel comfortable throughout the visit providing all the information i needed to make a decision including going to extended lengths to allow for payment options to make the process more affordable. i look forward to a growing relationship with future visits and for me it is worth the extended drive to make them.

Everyone there is always very nice. I arrived to my appt. 15 minutes early, and ended up waiting 35 minutes before we really got started. I felt a bit pressured at the end of my treatment.... whereas I do understand that Dr. Katz is only looking out for my best interest and health, I expressed mutliple times that at the age of 42, I am not interested nor will consider getting braces... he kept on and it made me feel a bit uncomfortable. He then gets defensive... he's done this a couple of times to me....maybe it's just his personality? Anyhow, I like him and I'll definitely be back!!!

I always get excellent treatment by Dr. Katz and his staff. My only complaint is the referral to Dr. Shojael for my root canal. On my initial appointment I paid over \$500 for my root canal. I asked if there would be any additional charges and the Dr. Shojael's assistant assured me it was paid in full. After going in for a scheduled follow up just to

check the status of my root canal, I received a bill \$210.50. I inquired what the charge was for and was told for the follow-up. We told them to submit it to TriCare Dental, but we continued to get the same bill. My wife called their office, but we still got a bill. It was reduced to \$97.00 for what she called professional courtesy. My wife told them that I would not be back to their office ever again. Any time I've had treatment in the past, follow ups were always included. I was definitely upset with the service and will never recommend Dr. Shojael.

I like most people in life do not like going to the doctors and dentist, well they hold a very special place above all other medical professions as the LAST place I want to be. That is until I started going to Dr. Abe Katz. I have NEVER experienced a more professional, and understanding dentist in my 53 years of living. Despite having many dental procedures I must take care of I have booked several appointments because this guys an artist. He transforms your smile and does so in a pain free manner, despite having just drilled my tooth for a cavity. I'll be sticking with Dr. Katz from hereon, because I truly believe in his abilities, professionalism, and genuine desire to make each person he works his top priority. He's the BEST!

Nellie is a fantastic hygienist. She is personable, and cleans my teeth according to my specifications. I would absolutely recommend her because she's so wonderful. Unfortunately, the office doesn't have a TV to watch while getting my teeth cleaned. There are just pictures of teeth on the TV that are pretty gross. I'm used to being able to be distracted by the TV since getting dental work done makes me nervous and uncomfortable.

Before I found Dr. Katz, I used to have to fly back to Florida to take my daughter to the pediatric dentist she trusted. Dr. Katz is so patient, soft-spoken and gentle, my daughter completely got over her fear of dental work. He is a perfectionist and folks are always commenting on what nice teeth I have. Believe me, they didn't look that way before. Dr. Katz is always kind and I love the staff. I was there last week and hated to leave because we were talking and laughing so much. Did not receive a care package bag with toothbrush, toothpaste and dental floss as usual. Many other dentists do that, why don't you? Also, I did not get too educated on the x-rays. It would be nice if you point at the x-ray more often and let people like me know exactly what you are talking about and why things are the way my teeth looks, especially cavities and fillings.

Dr. Katz and his staff have been my go-to dental office for many years, and I highly recommend his office. Dr. Katz's dental experience and skills are very reassuring; his friendly and calm manner is also reassuring to his patients. His dental assistants and office staff I have found to be equally friendly and capable. This is a great dental office.

Superb appointment - I can't say enough about how attentive and reassuring both Dr. Katz and his staff are. My appointment was to fill two cavities - I had never had a cavity before so I was a bit anxious about the process. Dr. Katz did everything to make sure i was comfortable and i'll be honest, i never felt a thing. Professional team of staff who greet you by name upon arrival to well kept small office space, which is never crowded. i attribute this to proper scheduling, allotment of time for service to be rendered and counting on patient on-time arrival. office does their part by sending appointment reminders and they REALLY do contact you for open appointments should you needs to re-schedule or accommodate patient request for special appointment time. Service is rendered promptly, technicians are thorough, display concern about comfort level of patient during treatment, explains steps, offer suggestions for patient care between visits (no hard core sells tactics), display of genuine care for patient during visit. Removes the tension often associated with visits to the dentist. Dr. Katz spends an appropriate amount of time with me, find his "chair-side" manner to be pleasant his critique of technician is not rushed and he will request added attention, if he deems it necessary...rare, yet, it gives me comfort to know he does just blindly give a stamp of approval to get me out the door. Recommend without reservation. Joan Johnson

Dr. Katz is the best dentist I've ever had, and I've had many having moved about the countryside many a time. He is gentle and honest. For instance, I was told by a dental group in Northern Virginia, that I needed about \$10K done and if I didn't I'd lose my teeth and my life would be over. I have an uncle who's a dentist, so I sent him my x-rays and he said that it was highly doubtful that I truly needed all that work done. He told me what he thought I would need done. I found Dr. Katz in the phone book (liked his first and last name) and thought I'd give him a shot. I didn't tell him what I'd heard from dental group nor about my uncle and would you believe he suggested exactly what dear uncle had thought. It saved me several thousand dollars and saved some teeth! "Honest Dr. Abe" is a technical genius to boot!

Dr. Katz repaired a small chip on my front tooth and did so expertly. My teeth are very white and he matched the color perfectly. I was seen very close to my appointment time and treated with respect and care by all those in his office. My only caveate on a perfect review, and it is a small one, is his office appeared to charge me a couple dollars more for my out of pocket expense than was due (which I determined after I made my payment.) Although my experience with Dr. Katz is limited, my review is very positive.

I don't like dentists. Really. They rub me the wrong way. Whether they are doing their job on the FedEx-package-like assembly lines in their little sterile conformity dental offices, or I am rushed by them in the cashier's aisle in the grocery store, they bother me. Go figure. But not Dr. Katz. This dentist is likeable, really, most primarily because he likes YOU. He takes the time to discuss exactly what he is doing and what will result. And he takes an interest in YOU as a person. I came to Dr. Katz for help to treat my sleep apnea. We have started the treatment, and I can't wait til the process produces the desired results. So far he is 100% on the mark. Do I recommend Dr. Katz for you and your family? As Sarah Palin would say, "YOU BETHCHA!"

I have never had to wait more than 5 minutes before I'm in that chair seeing the doctor. The assistants are amazing- I have actually developed a friendship with one (how many offices can you say that about?). And the dentists are professional and really take the time to talk with you about x-rays, possible cavities, etc. not the cosmetic push you get in most places. I really love this office.

Also I made the appointment 6 months ago on a Friday and two weeks before my appointment someone called to see if I could come in during the day on another day! NO, I WANT THE FRIDAY APPOINTMENT I MADE 6 months ago. Luckily they didn't cancel but my instinct tells me the reason I didn't see the doctor was because one wasn't there. Considering switching dentists.

Dr. Katz is my favorite doctor--and this extends to his office staff, as well. I started visiting Dr. Katz years ago, in my mid-20s, and after having only gone to a dentist twice in my childhood, I needed a great deal of restorative care and had a terrible phobia of dental work. A coworker recommended Dr. Katz, and he immediately proved to be caring, patient, and a calming influence. He and his staff have provided incredible care throughout the years, and I've gained so much trust that on my most recent visit (a follow-up to a root canal), I trusted him to work on my tooth without any anesthetic, much less the anti-anxiety medication I used to require. Although I recently moved from Sterling, VA to Washington, D.C., I still drive to Herndon for my dental care, because I don't think I could find anything better anywhere else.

I would not patronize this business again. I scheduled an appointment for work that needed to be special-ordered. When it came in, instead of checking that they had the entire order before scheduling my appointment, they went ahead and scheduled it and allowed me to come in during my work day. When he realized that they didn't have everything they needed to complete my dental work, instead of acknowledging the process break-down ("er, we should have checked to make sure the order was complete before scheduling you", etc.) - he simply says that we need to reschedule another visit (it was hard enough to schedule the first one)...he hands me over to his assistant (nice woman, btw)...and disappears. I am shocked at the general disregard for anyone's time but his own, but gather my thoughts enough to raise this concern to his assistant. She begins to acknowledge the error and apologize, which is when he re-emerges out of nowhere and downplays the importance of it some more (i.e. generally not open to any of the feedback nor acknowledging that there could be a change in their process to prevent these things in the future.) I have no choice but to schedule yet another appointment to complete the work and am rewarded with a \$5 gift certificate to Starbucks. Are you kidding me?? The proprietor (Abraham Katz) is buoyed only by his staff - they are nice people but he is completely clueless.

I have been going to this practice for over 4 years now. I have referred a few of my friends to it and they love it too. My husband and I both are patients of Dr. Katz and the main reason we continue to be his patients is because everyone in the office are so nice, polite, professionals and they seem to care.

The experience I had was amazing! The entire staff is friendly and knowledgeable and the atmosphere is very relaxed. I can't say much about the waiting room, because I hardly sat down before I was called in. One time they even called me in the morning to move my appointment because they were running behind. I liked the automated system email/text appointment reminders. They listened and incorporated my personal needs and goals into a plan. I had a lot of work done including a crown, filling, cleaning, scaling, and 4 veneers. Dr. Katz made sure I was completely comfortable and ready before he started any work. He explained exactly what he was doing and how it would feel. I was worried about getting veneers but they look wonderful and real and I get complements all the time. The staff was as pleased as I was with the results and thanked me for letting them fix my smile. I carry no dental insurance but they worked with me to develop a personal and affordable financial plan. I thought the prices were very reasonable and I would recommend Dr. Katz and his staff to anyone. Brooke

For something as personal as medical care, you expect to be heard and cared for. That's exactly what happens when you have an appointment with Dr. Katz's professional team. I feel like they not only know me, but deeply care about what happens to me. I wish I could say that about the other medical offices I occasionally visit. I trust this team implicitly. They take the time--to hear you, ask appropriate questions, and consult with you, so that whatever decision is made about your dental care, you have confidence that you make the right decision, you understand the treatment, and you have a clear picture of the outcome. Further more, Dr. Katz and his team stay up to date on procedures/problems so you can asked about such things as whitening products and get a truthful answer. Dr. Katz has been my dentist, and my son's, for over 15 years. I wish all my doctors and their teams were like his.

This cleaning is part of my semi-annual check-up, the hygienist took X-rays at this time to make certain no cavities and related issues were present. The hygienist performed most of the dental cleaning - and was very, very professional. Dr. Katz took a last look, and performed some plaque removal toward the end of the cleaning, in addition, he evaluated my mouth and teeth for any issues/problems, as well as my gums for gum disease. I was extremely satisfied with this visit, as I have been in all visits(appointments) to Dr. Katz's dental office.
